CAREER OBJECTIVE

Highly motivated professional with experience in developing and managing software applications. Proven record of successful design and implementation of software solutions to streamline processes and improve productivity. Highly skilled in Java, Python and C++. Adept at troubleshooting and debugging software applications to ensure optimal performance. Skilled in object-oriented programming, web development and database technologies.

COMPETENCIES

Web Automation, build games, apps and web development, data science and machine learning all using Python. I use Selenium, Beautiful Soup, Request, Flask, Pandas, NumPy, Scikit , Plotly, and Matplotlib. I have a portfolio of over 100 Python projects.
I can build fully fledged websites and web apps, able to use Python for data science and machine learning.
I have built games like Blackjack, Pong and Snake, GUIs and Desktop applications with Python.

EXPERIENCE

Python Developer: Remote

• Collaborated with quality assurance team to verify correct implementation of software development changes.

• Worked independently to design, develop and test code.

• Modified existing software to correct errors, adapt it to new hardware and upgrade interfaces and improved performance.

• Stayed current on developments in related Python frameworks.

TECHNICAL PROFILE

- Python
- CSS
- Bootstrap
- Selenium
- React Native
- HTML
- JavaScript
- GitHub
- Django
- Cloud Services

SKILLS

- Object-Oriented Programming
- Program testing software
- API design knowledge
- Software applications
- Python Django and Flask
- Database Management
- Test Automation
- Debugging and Troubleshooting
- Integrated Development Environments
- REST

EDUCATION

Federal University of Technology, Akure   **Dec 2019**
Computer And Information Sciences
B.Tech

SOFTWARE

PyCharm
Visual Studio Code
